

What is it like to breathe in Bosnia and Herzegovina

Breathtaking scenery, beautiful sights, but also the legacy of the recent war. What does Bosnia and Herzegovina offer to its visitors and what is life of local people in the Balkan country like? Who is responsible for poisoned rivers and polluted air? Are they incompetent authorities, or is it recklessness of multinational corporations?

Arnika – Citizens Support Centre (CZ) and Eko Forum Zenica (BiH) would like to invite you to a lecture accompanied by screening of pictures and short videos showing the environmental situation in Bosnia and Herzegovina. Discussion about the efforts of local non-governmental organizations will follow. Former Ambassador of the Czech Republic, Mr. Thomas Szunyog, will share his experience, too.

Thursday, December 11,
2014, from 18:00
Standard Cafe, Karoliny
Světlé 23, Prague 1
